TAFT'S MEASURES ARE IN A BAD WAY

Lawmakers Want to Get Home, and Only a Start Has Been Made on Administration Bills-Senate and House Still Far Apart-Outlook Not Encouraging.

the Senate following the vote on the railroad bill is a matter of speculation. The administration Senators want to bring up the bill giving to the Fresident unlimited authority to withdraw public lands for conservation purposes, but Democratic Senators, under the lead of Mr. Balley, will insist that the Statehood bill be considered. In the House there is some demand that the postal savings bank bill be taken up.

public lands for conservation purposes, but Democratic Senators, under the lead of Mr. Balley, will insist that the Statehood bill be considered. In the House there is some demand that the postal savings bank hill be taken up, but it is still in committee, and an order of a majority of the House may be necessary to dislodge it.

Peculiar situations exist in relation to both the Statehood and postal bank bills. The first named has passed the House and a radically different bill has been reported from the Senate bank bill has passed the Senate, but in a form which seems to be wholly unsatisfactory to the House. If the Statehood bill should pass the Postal bank bill should pass the Postal bank bill should pass the Senate in the form in which reported and the postal bank bill should pass the House in form approaching the general demand of that body, it is extremely doubtful whether either could get out of conference.

May Veto Bill.

NORD ALEXIS DEAD

Former President of Haiti Dies in

Kingston, Jamaica. May 1.—Nord Alexis, ex-President of Haiti, died here to-day. His death occurred at 8 o'clock in the morning, following a brief illness. His health, however, had been considerably broken by the experiences of the last year and a half, after he was deposed from the presidency and sent into exile. He had been a refugee here since the revolution of 1908, and was possessed of considerable property in Kingston.

was possessed of considerable property in Kingston.

A picturesque ruler was removed from office when Nord Alexis was compelled to abdicate and flee from Haiti on December 2, 1908. Port-au-Prince was then in the hands of the revolutionists, and General Antoine Simon, who afterwards became Fresident, was marching up the peninsula with an army of 5,000 men.

Nord Alexis was variously estimated at from ninety to one hundred years of age. He was a descendant of one of the oldest families of Haiti.

After having been educated under the care of his parents he entered the Haitien army, and his bravery soon drew him into public attention. He took part in many wars, and in 1852 rebelled against Hippolyte, who previously had overthrown President Legitime. Hippolyte died the same year while preparing to march against the rebels, and he was succeeded by Gen-
